

Duplo

from print to documents

ASM-600

Spine Master

FEATURES

- Ideal for short run bookletmaking jobs that require a Square Spine
- Create more appealing, professional-looking booklets
- Booklets can be opened flat without damaging the spine
- Improve pack efficiency
- Print on the spine

Eliminate the bulk of traditional saddle stitched folded booklets with the ASM-600 Spine Master. Add value to a variety of offset and digitally printed booklet applications and create more appealing, professional-looking booklets that are much flatter and easier to pack. Give booklets a simulated perfect bound appearance at a fraction of the cost of perfect binding. Stitching ensures that pages will not fall out. Printing on the spine of the booklet is possible and booklets can be opened flat without damaging the spine.

With a maximum processing speed up to 1,400 booklets per hour in a single pass, the ASM-600 can be connected to Duplo's DBM-600/600T Bookletmaker and Trimmer or used as a stand-alone machine. Equipped with an integrated stacker, booklets are neatly stacked and can be easily accessed and removed.
